

News I-FourC | Lexxyn Groep

I-FourC officially becomes partner of the Lexxyn Groep

I-FourC officially joined as a partner of the Lexxyn Groep per 1 March 2015. This collaboration ensures that the complete product- and services portfolio of I-FourC is fully focused on legal practices and therewith able to support firms in an effective way.

The Lexxyn Groep is a group of cooperating companies that provide IT-services within the legal sector: lawyers, notaries and bailiffs practices. The combined experience and collegial collaboration of the partners, result in Lexxyn Groep being the knowledge partner for small, medium and large enterprises in the legal sector. The products and services of I-FourC are an addition to the existing portfolio of the Lexxyn Groep Partners. The Groep currently exists of: BigHand, Clip Consultants, Cloud Concept, Devoon, Epona, Helder Telecom, ICT Concept, Scan Service Netherlands and Trivium Software. The previously provided services by Scan Service Netherlands, will be adopted by I-FourC.

I-FourC specializes in unlocking paper into the digital world. As an expert in digitization, archiving and IT solutions that support paperless working, I-FourC is a valuable addition to the Lexxyn Groep. Digitization is currently a hot topic within the legal industry, where security and valuable information play a major role. I-FourC advises and supports companies in the transformation to efficient digital workflows as simple and smooth as possible. Jointly providing solid solutions in legal practices is what we are able to accomplish together.

The CEO of I-FourC, Léon Lalieu, about this new development: *“We are very enthusiastic about this collaboration, as we are convinced that we are capable of strengthen each other. By being able to offer complete packages for this sector, we can quickly anticipate to customers’ needs and effectively create a good and solid solution. I believe that cooperation is the key to success and together with this passionate team of specialists, we are able to provide a complete solution.”*

Ben van Hengstum, Partner of the Lexxyn Groep, confirms this: *“In the past we have performed digitization and storage of archives for our customers on a small scale. That is the reason, we know that we have to deal with extremely sensitive data. And additionally, that it has to be carried out very precisely in a secure environment. On a large scale, that requires a professional and certified process. Specifically that, is essential for our customers. We are therefore very pleased that I-FourC has become part of the Lexxyn Groep and that they are able to professionally and carefully perform these tasks. We definitely see great opportunities and added value for our customers and therefore kindly welcome our colleagues of I-FourC!”*

I-FourC and the partners of the Lexxyn Groep are convinced that this development ensures an even better way of providing the legal practice with IT-services in its most optimal format.
